## LOCATION

THE BETHEL RESORTS & SUITES, BETHEL, ME

**FEE:** \$1900 USD W/O LODGINGS  
 \$2800 USD W/LODGINGS

## IN THIS INTERACTIVE “HYBRID” WORKSHOP, PARTICIPANTS WILL:

1. Enhance competence of participants to observe, diagnose and intervene on team dynamics through a variety of frameworks and models.
2. Build a team culture that values diversity, equity and inclusion for sustained team performance.
3. Explore personal capacity and mastery required to engage in team dynamics and coach team members.

Dynamic teams operate at three levels of performance:

a) at the level of goals and tasks, b) at the level of team learning and engagement and c) at the level of trust, diversity and building a performance culture.

We will explore all these levels of dynamic teams in this workshop.

In addition to a powerful learning opportunity with Sankar and Kathy, you will also be in Bethel, ME, the birthplace of NTL and Applied Behavioral Science.
